About Us :

At **RAKSHITAM ECOFIBRE PVT LTD**, we are dedicated to creating sustainable, superior-quality Recycled Polyester Staple Fibre (RPSF) and PET Flakes that contribute to a greener future. As a leading manufacturer and exporter in the industry, we take pride in offering eco-friendly solutions that meet the evolving demands of global markets, while reducing environmental impact.

Our commitment to sustainability begins with sourcing 100% post-consumer pet bottles waste, which is then carefully processed and transformed into premium-quality fibre and flakes. By recycling, we help to reduce the consumption of virgin resources and significantly minimize waste, energy use, and carbon emissions.

This makes it possible to turn millions of used plastic bottles into top-notch eco-friendly products. Through our consistent and innovative approach, we ensure to produce Recycled Polyester Fibre that stands out for its superior qualities.

Our Vision :

Our vision is to lead the transition towards a circular economy by being a global innovator in the manufacturing of RPSF and flakes. We strive to revolutionize the textile industry by providing high-quality, sustainable solutions that reduce environmental impact, conserve natural resources, and promote a cleaner, greener future.

We are committed to advancing recycling technologies, improving product quality, and collaborating with partners across industries to build a sustainable, waste-free future.

Through innovation, responsibility, and dedication to excellence, we aim to be the preferred partner for sustainable fibre and flakes, setting new standards for environmental stewardship and circularity in every aspect of our business.

Our Mission :

Our mission is to persistent innovate, improve our processes, and expand our capabilities to meet the growing demand for sustainable materials. We are dedicated to fostering long-term partnerships with our clients, supporting the shift toward more responsible manufacturing, and creating a cleaner, more sustainable future for generations to come.

We are committed to turning waste into valuable resources, reducing our environmental footprint, and promoting a circular economy that minimizes the use of virgin materials.

By using advanced recycling technologies, we transform post-consumer waste into premium fibres and flakes, helping our customers create sustainable products while reducing their environmental impact.

Highest Tenacity & Lowest Fuse

RAKSHITAM

ECOFIBRE - PVT - LTD

01 >

RECYCLED POLYESTER STAPLE FIBRE

Our company develops RPSF with the lowest fuse and Highest Tenacity in solid fibre. Our RPSF consistently complies with the top & touch certification and standards. Fibres available in off-white, vanilla white, black and jet-black colours.

In denier ranging from 1.0 to 8.0, we have produced a wide range of solid high-tenacity RPSF in cut lengths of 28 mm, 32 mm, 38mm, 44 mm, 51 mm, 64 mm, 76 mm, and 102mm. With a 36,000 MT yearly production capacity, our business can effectively handle your bulk needs.

02 >

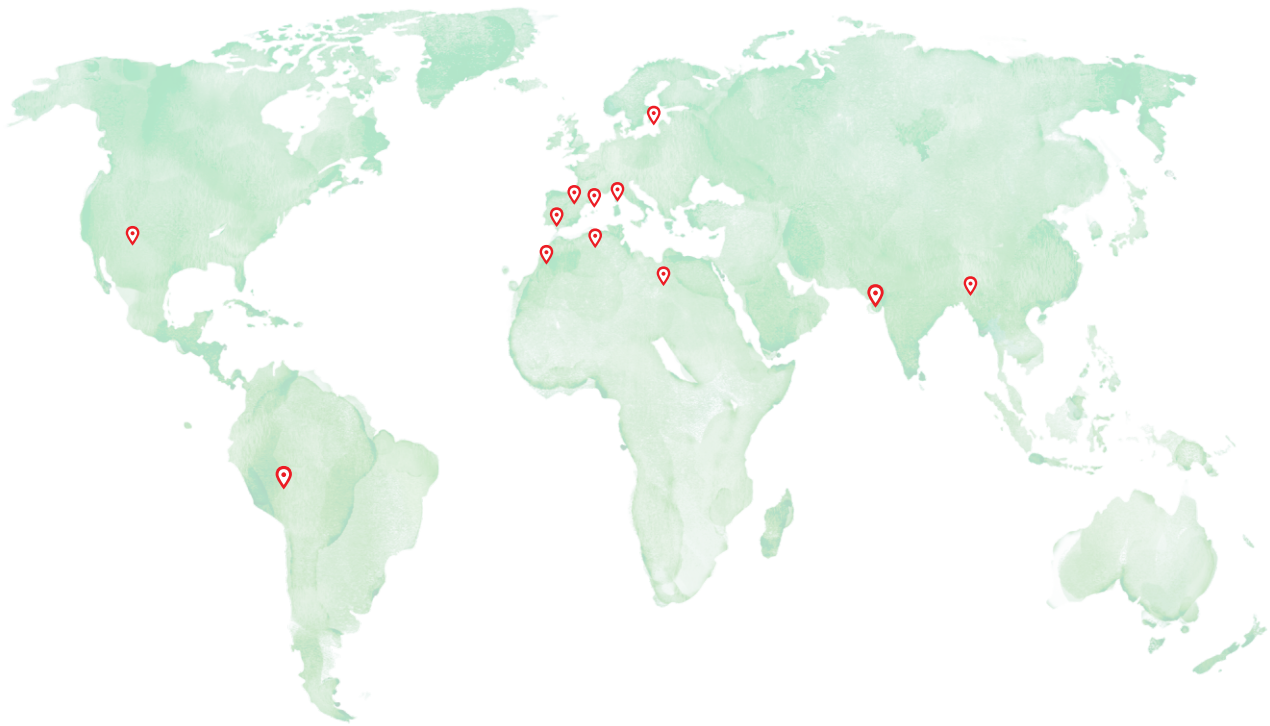

PET FLAKES

We specialize in the manufacturing of high-quality PET flakes through advanced technology. We collect post-consumer Pet material and transform them into uniformly clean flakes which can be utilized again. Our advanced sorting, washing, and shredding technologies ensure that each batch meets the highest standards of purity and consistency, making our PET flakes ideal for a wide range of applications.

Our commitment to innovation and environmental responsibility drives us to deliver products that not only reduce waste but also contribute to a circular economy, supporting a cleaner, greener future for all.

Sustainably transforming waste into value, while creating a better tomorrow.
